The further adventures of...

The Three Musketeers

"It was a grim year for France, the early death of Louis XIII had left the heir to the throne, still but a babe-in-arms. Ruling as his regent, his sister, the Princess Fleurette, was prey to the intrigues of the French Barons. In particular, the evil Duke de Rochefort" Her only hope lay in the skill, bravery and panache of the 'Kings Musketeers'".

*Gasp at the spectacle! Thrill to the swordplay!
Blench at the historical inaccuracy!*
